

# Nacresque Exports

THE WORLD'S OLDEST  
FORMULATION,  
REIMAGINED.

AUTHENTIC SYRIAN GHAR SOAP. CRAFTED FOR MODERN  
LUXURY.

# PURE HERITAGE. MODERN PRECISION

---

We bridge the gap between ancient mastery and contemporary retail. Sourced directly from our original production facilities in Syria, we maintain the centuries-old authentic formulation while executing it in modernized shapes and elegant designs. It is the ultimate fusion of historic craftsmanship and luxury aesthetics.

## Uncompromising Plant-Based Purity

Our soap is crafted exclusively with pure olive oil, laurel oil, water, and lye. The formulation is completely natural and organic, ensuring an absolute absence of synthetic chemicals, artificial fragrances, preservatives, or animal fats. It is the original, uncorrupted botanical cure.

## The Formulations

To guarantee premium exclusivity for your curation, we specialize strictly in high-laurel, luxury-grade concentrations:

- **The 20% Laurel Blend:** A gentle, daily botanical purification designed for elegant everyday use.
- **The 40% Laurel Blend:** Our most premium, intense curative tier, offering maximum dermatological benefits and a rich historical profile.

# THE 9-MONTH ARTISANAL CURE

---

True authenticity cannot be rushed. Following the traditional pouring and hand-cutting process, our soaps are stacked in massive geometric columns within our stone manufactory. This unique architectural curing method allows the Mediterranean climate to naturally aerate and harden the soap for up to 9 months. This profound aging process creates its distinct oxidized golden exterior and long-lasting density, while preserving the rich emerald green center.

## Global Transparency & Quality Assurance

We manufacture at scale for stringent international markets in Europe and Japan, providing modern corporate reliability without sacrificing the traditional artisan craft.

- **ISO Certified Production:** Manufactured strictly under ISO 22716 guidelines for global cosmetic compliance.
- **Laboratory Verified:** Comprehensive Certificates of Analysis (COA) and full dermatological lab testing are available upon request.

# BESPOKE PROCUREMENT SOLUTIONS

---

We offer end-to-end manufacturing partnerships, adapting our heritage to fit your brand identity seamlessly.

## White-Label & Custom Packaging

We provide premium, retail-ready custom packaging capabilities tailored to match your exact aesthetic and brand architecture. From minimalist white-label boxes to bespoke luxury sets, we deliver a presentation that aligns with your market.

## Flexible Volume & Lead Times

- **Minimum Order Quantity (MOQ):** Accessible entry at 2,000 Units.
- **Scaling Capacity:** Flexible fulfillment scaling up to 10,000+ Units per order.
- **Wholesale Pricing:** Highly competitive, tiered volume pricing customized upon review of your exact packaging and volume requirements.
- **Production Lead Times:**
  - *Initial Custom Orders:* 4 to 6 weeks (includes bespoke packaging logistics).
  - *Subsequent Orders:* 2 to 3 weeks for returning volume.
  - *Transit Time:* Dependent on selected freight and destination port (FOB).

# EXPERIENCE THE CRAFT.

---

Our visual assets only tell half the story. The tactile density, modern precision finish, and profound natural botanical profile of an authentic high-laurel cure must be experienced firsthand to be fully understood by your curation team.
